

**ABY  
Colourlast**

ABY™ Colourlast yarn is a specially designed product that offers deep, everlasting color in every single strand of fibre. Soft to feel, safe to use and environment friendly, ABY™ Colourlast yarn retains its vibrant shades wear after wear, wash after wash.

ABY™ Colourlast yarn uses pigment dyed where color is injected during fibre manufacturing process, providing longevity of colors, drastic reduction in wet processing costs and perfect consistency in shades across lots. It assures better quality than piece dyed fabrics. It supports eco-friendly downstream processes and eliminates stages that call for dyes and chemicals.

## FEATURES

Eco Friendly

Uniform in  
Color

Excellent Color  
Fastness
