

ABY™ BAMBOO RAYON

Features

Bamboo Rayon fibre is a regenerated cellulose fibre made from Bamboo pulp.

Special Properties of Bamboo Rayon Based Products

- **Incredibly Soft** - A more soft and luxurious feel.
- **Antibacterial** - Bacteria does not live well in this fibre, so doesn't get smelly even after many uses.
- **UV Protection** - Cuts out 97.5% of harmful UV rays, perfect for holiday / traveling cover-ups.
- **Sensitive** - It's anti-static and sits well to the skin.
- **Moisture Wicking** - Bamboo fabric absorbs moisture away from skin.
- **Thermo Control** - Bamboo fabric is warm and breathable due to Hollow microfibre (like wood).

Environment Friendly Raw Material

Sustainable, Eco-Friendly, Biodegradable.

Applications

- ▶ Woven & Knit Apparel.
- ▶ Home Textile (Bathroom, Textiles, Kitchen wear)

Blend Options

- ▶ 100% Bamboo Rayon and in blends with Cotton, Linen and Polyester.
